PROFESSIONAL SUMMARY

Full-Stack JavaScript Engineer with hands-on experience building and shipping production web applications using React, Next.js, NestJS, Node.js, and PostgreSQL. Experienced in developing scalable user interfaces, integrating secure payment systems, and building REST APIs. Familiar with Docker for containerization and microservices architecture. Passionate about building reliable, performant systems.

EXPERIENCE

Associate Software Engineer - X4 Digital Labs Feb 2025 – Present

- Developing and maintaining production web platforms including reservation and restaurant management systems.
- Building responsive user interfaces using Next.js and Tailwind CSS.
- Implementing authentication systems (JWT) and payment gateway integrations.
- Managing applications using Redux and Context API.
- Improved API response time by optimizing PostgreSQL queries.
- Collaborating with cross-functional teams in an Agile development environment.

Intern Software Engineer - Invicta Innovations (Pvt) Ltd Mar 2024 – Sep 2024

- Contributed to the development of a healthcare management system.
- Built frontend components using React and TypeScript.
- Integrated REST APIs and improved overall application stability.
- Worked closely with senior developers in a team environment to deliver project features on time.

PROJECTS

INDPT Website - Next.js, Tailwind CSS, Redux, SEO

- Developed a production website with responsive UI, clean component architecture, and improved SEO structure resulting in better search visibility.

Salt Al Bahar Website - Next.js, Redux, Payment Integration, API Authentication

- Built cart functionality and integrated a secure payment gateway with API key authentication for a restaurant/hospitality platform.

@julach-earzan/email-template-builder - React, TypeScript, npm Package | npm.email-template-builder

- Built and published an npm package (v2.0) for visually building email templates, featuring a drag & drop editor, reusable components (text, image, button), style customization, and HTML export.
- Originally developed as an internal company tool; refactored and published publicly, reaching 400+ downloads.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3

Backend: NestJS, Node.js, REST API Development, API Integration, Microservices

Database: PostgreSQL, MySQL

State Management: Redux, Context API

Auth & Payments: JWT Authentication, API Key Authentication, Payment Gateway Integration

DevOps & Tools: Docker, Git, GitHub, Firebase Hosting, Agile Development

Mobile: React Native (Hobby Projects)

EDUCATION

Bachelor of Science in Computer Science

Eastern University of Sri Lanka | 2020 – 2025
